#### Project Description *(attach additional pages if necessary)*

This project consists of the implementation of a building-wide energy efficiency retrofit of the existing building systems and sub-systems that use energy and/or impact energy consumption, including but not limited to electrical, HVAC systems and the installation of energy meters and data-gathering equipment in various agency buildings in order to implement the Energy Conservation Measures (ECM's) identified, prepared and certified by the Commissioning Agent. The goal is to meet the Energy Audit requirements of Local Law 87-2009 of New York City.
