**Project Description** (attach additional pages if necessary)

This Project consists of the modernization and upgrades of two passenger elevators located in the building to bring the elevator system up to local code. The two elevators have been problematic for many years and desperately need to be renovated. In general, the scope of work with this project includes:

- New hoist machine including electrical motor with all accessories, elevator controller, selector and power drive, elevator cab including enclosure, door, cab door operator and cab fixtures and elevator cab flooring and sub flooring.
- Also provide new related mechanical and electrical work including cooling and heating of the elevator machine room, hoist way venting and smoke detection, new feeders to the elevator machine room utilizing existing 2" conduits from existing panel DPB to feed the elevator equipment, new cameras in elevator cabs, new power supplies in elevator machine rooms for video surveillance cameras and new Ethernet-Fiber Optic media converters in the existing Main IT Room.
