Project Description (attach additional pages if necessary)

This Project consists of Interior renovation of office space located on 7th floor of the existing building and minor asbestos abatement. Scope of work for MEP systems includes new HVAC units (with new condenser on roof with new dunnage), modifications to the existing heating system, new bathroom and pantry, modifications to the existing FA system, new electrical panel. The project includes Installation of new fixtures in pantry and bathroom, installation of tilework in bathroom and installation of new subfloor throughout (including soundproofing). No modification on façade beyond replacement of one double hung windows to accommodate air handler fresh air intake. Project is Phase I of a two phase renovation where the second phase will include interior partitions, finishes, lighting, HVAC ducting etc. in order to bring the space into a fully functioning office space.
