Project Description (attach additional pages if necessary)

This Project consists of hazardous material removal and abatement of a three level structure. Structure measures approximately 92 ft x 40ft at each level, contains interior partitions for offices and bathrooms, stairs and equipment. Superstructure demolition will commence after successful completion of the hazardous material abatement process. Building structure and foundations walls 4 feet below grade will be abandoned in place. Basement walls will require temporary bracing during demolition and compaction and backfilling of basement. After site grading completion install 10 ft high chain link fence at north, south and east property limits. Also install precast Jersey Barriers at east and south property limits and install turf grass and erosion control measures at site. Project includes all works described in this scope, drawings, and other Work indicated in the Contract Documents

M/WBE Participation Goals for Services
